

User Experience

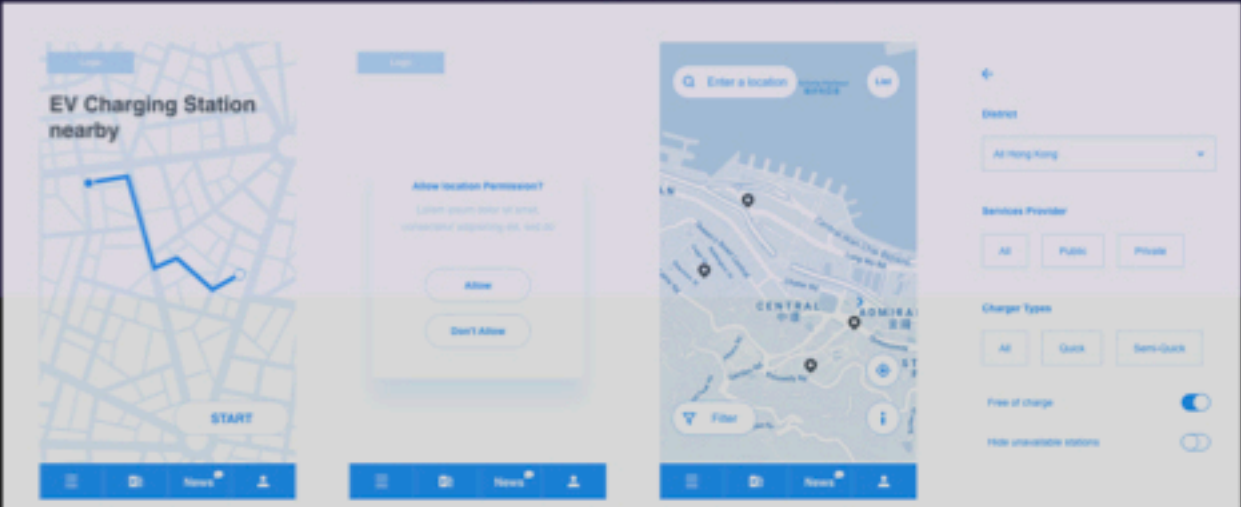

EV Energy

It is about designing an app to help the users finding the electric vehicles (EV) charging facilities easier and provide a centralized and user-friendly EV information sharing platform. It aims at promoting the adoption of EV in Hong Kong.

Connect with Electric Vehicle charging stations and the community

E-learning

Plastic Ocean

An e-learning about the issue of plastic pollution with using education guide from Plastic Oceans. It hopes to encourage colleagues to join the “Plastic Free” campaign.
